

## **Origin**

My name is Mike, nickname Schumacher. I am Bulgarian. I emigrated in South Africa in 1996.

## **Education**

I studied in Gymnasium ( high school ) in my home town. This high level school had a class with enhanced driving education. There i got my professional driving license and a diploma with all distinctions. After this strong performance the doors of the universities were open for me and i started my 5 years education of Land Surveying. There i got my Degree of Land surveying ( Engineer ).

## **Experience**

- 2 years intensive driving in the army ( border control )  
Servicing in a border as a driver was a hard experience for a nerd who spend 3 intensive studying years. It was a painful start and difficult life over there but when i went through the gate of the military base i was a very good driver with a lot of confidence.
- 37 years of civil driving experience. Yes, i am driving that long and there are no secrets of driving for me.
- 18 years experience as a driving instructor. Getting into this profession was an accident. As every beginner instructor i didn't know what to do at first, but day after day, year after year i learned and developed strong teaching skills. Now i know everything about this job.
